

FIREFLY Strap™

Material Description

FIREFLY Strap is a high pressure intumescent wrap. Available in a 25m long coil, easily cut to the required length using a long bladed Stanley knife. Dimensions 40mm x 2mm x 25m roll.

Applications

Used to wrap around thermally lagged copper pipes and small PVC/HOPE pipes. Will expand in a fire to replace the gap left by the thermal insulation and plastic pipes as they melt or break down, maintaining the full integrity of the fire seal.

Certification

Tested in accordance with AS1530.4 2014.
Assessed in accordance with AS4072.1 2005.

Tested both vertically and horizontally.

Warringtonfire Report FAS190235 RIR and FAS190236 RIR

FRL

Up to -/240/240 dependent on tested system. For subject FRL refer to referenced reports or to the FIREFLYPFP App.
